

Hello Cleveland Hungarian Development Panel,

I had a very positive experience in the Modern Hungary course. In addition to the educational experience, I could tell that the instructors were very passionate about student learning. The lessons were engaging and the instructors put in extra effort to plan excursions included in the class that were relevant and fun. The poetry recitations to the statues of the poets were especially fun. Beyond academics, the program put in effort to add cultural events for the benefit of the student's comprehensive learning. I also found my fellow students to be welcoming and kind. I am pleased to say I have made some connections that have continued to this day and I foresee turning into lasting friendships.

Thank you for providing me the opportunity to participate in this program,

Dudás Lili
