DSS Scholarship Report – 2020

Regarding the scholarship that The Cleveland Hungarian Development Panel funded, I am extremely grateful for this opportunity.

The time difference was no problem, as every day it was a great motivation to be with colleagues in the mornings, each one with their own learning motivation, and a kind teacher, extremely dedicated and committed.

I had the opportunity to learn many new concepts, the material is great, to continue my studies. My purposes were surpassed. I am very grateful for the opportunity to have studied at such a historic university, and this was only possible thanks to the scholarship. I am always available in Brazil.

Best Wishes,

Furis Viviane
